

COVID-19 : HEALTH PROTOCL TO FLY TO SAINT BARTHELEMY (UPDATE)

For All passengers in transit via Sint Maarten (SXM) to SBH :

Sint Maarten has established a mandatory health authorization application through an Electronic Health Authorization System (EHAS) for every visitor whether arriving by air, boat or in transit. Without the health authorization, entry into the country will be denied by the immigration authorities.

Apply for Health Authorization : <https://stmaartenehas.com/application-form/>

A negative Covid-19 RT-PCR test is mandatory for 11 years and over travelers (sampling) within 72 h before boarding.

A declaration on honor is also required. The passenger will have to certify that he or she is symptom-free of Covid-19 infection and is not aware of have been in contact with a confirmed case of Covid-19 in the last 14 days.

The health protocol requires that every traveller arriving in St. Barthelemy, regardless of origin, (at with the exception of persons from Martinique, Guadeloupe, Saint Martin - Green Zone inter-island who remain exempt from testing before departure, on arrival or on D+7), carries out a PCR test on D+7 following his arrival on the island. This second test is essential to ensure the health of your loved ones and the safety of SBH.

More information about travel and health requirements can be found on government's website :
